THE OPPORTUNITY

COMPANY

LumaBio Diagnostics

TAGLINE

Low-cost optical tools for faster lab screening.

SECTOR

Life Sciences / Diagnostics

HEADQUARTERS

Lyon, France

FOUNDED

2023

STAGE

Pre-seed

FUNDING SOUGHT

EUR 1.1 million

PROBLEM

Small laboratories lack affordable high-throughput preliminary screening.

SOLUTION

Compact light-based reader with machine-learning-assisted signal classification.

EARLY EVIDENCE

PRODUCT

Research-use-only benchtop prototype, currently in validation.

TRACTION

3 research pilots; no commercial revenue reported.

MARKET

Founders describe a fragmented European diagnostic instrumentation market.

TEAM

A biomedical optics researcher and an embedded systems engineer.

OPEN QUESTIONS

RISKS

Regulatory pathway and performance against gold-standard assays have not been established.

NOTES

This fictitious deck intentionally omits competitive positioning and use of funds.
